2370	Black		1 Each	23 ½" (597mm)	44" (1118mm)	2 ¾" (70mm)	8 lbs. (3.5kg)	10

Description: A low profile polyethylene tray designed to fit under pallet racking and shelving.

Application: Capture leaks and spill underneath pallet racking.

Product Features: The Ultra-Rack Containment Trays help you maintain a clean and safe storage environment, by capturing small leaks beneath shelving units where normal secondary containment units can not fit.

- Molded tray catches leaks, drips and spills to help you comply with regulations and keep your storage area clean and safe.
- Low profile (2 ¾") spill trays slide easily under pallet racking and shelving.
- Black, all-polyethylene construction resists UV rays, rust, corrosion and most chemicals for long trouble-free life of the product.
- Multiple tray systems available to fit any size rack or shelf. Additional trays and/or connectors may be added for larger applications or revised configurations.

Composition: 100% polyethylene with UV inhibitors.

Helps you comply with: 40 CFR 112.7 and 40 CFR 264.175

Additional Specifications: Optional Connectors available PN 2373

Disclaimers: Flammables Notice: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources.
