

FOR IMMEDIATE RELEASE

HEADLINE: Jacksonville Company To Present at World Innovation Showcase, Wins 2 Awards.

Sub headline: UltraTech International Inc. has 3 products accepted for the TechConnect World Innovation Conference & Expo, wins 2 awards.

Jacksonville, FL – May 4, 2016 – Being accepted to attend the TechConnect World Innovation Conference and Expo in Washington D.C. is an exciting moment for any company. So when UltraTech learned that three of their new products had been accepted, they were thrilled! And, to top it all off, two of those three products were chosen to be presented to the Showcase attendees.

Innovations were received from academic technology transfer offices, early-stage companies, small business innovative research (SBIR) awardees, and government and corporate research laboratories from around the world. Only the top 15% of submitted technologies were accepted for presentation during the conference.

Three of UltraTech's newest and most exciting products: Aveho, Gentoo and the Tactical Welder were chosen from among hundreds of submissions.

- Aveho Odor Removal Technology is an engineered material that completely eliminates odors.
- Gentoo is a durable, hydrophobic and clear surface coating.
- The Tactical Welder is a very powerful and completely portable welder.

To find out more about UltraTech and their products visit www.ultratechinternational.com. You can learn more about Aveho Odor Removal Technology by going to www.avehotechnology.com

UltraTech is proud to have three products accepted for what has been called the largest showcase and accelerator for industry-vetted emerging-technologies ready for commercialization.

UltraTech International, Inc. was formed in 1993 with one goal in mind: to save the world from toxic waste by creating the finest offering of spill containment and spill response products. Since then, its vision has expanded into additional product categories and technologies and the company now features a product line that consists of over 350 unique products designed to keep the world safe and clean.

Focusing intensely on meeting customer needs, UltraTech's ongoing goal is to invent, innovate or develop a better solution. The company has introduced an average of 20 new products per year and their design and development team is credited with over 60 patents. They are industry leaders in spill containment, stormwater management, facility protection, construction compliance and oil spill response and are responsible for bringing many advanced technologies to market.
