

Ultra-Track Pan

Polyethylene Model

Ultra-Track Pans, Polyethylene Model are modular, allowing containment areas to be easily configured to any length required.

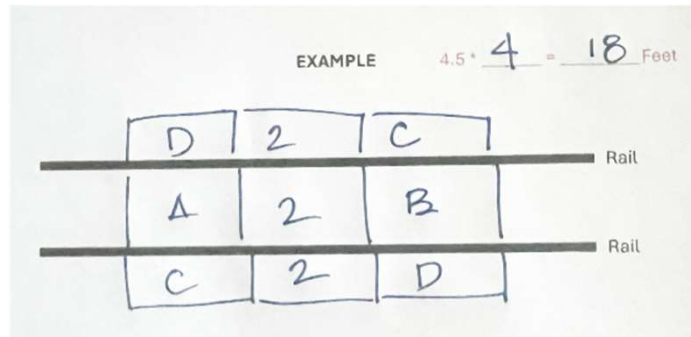

Instructions: Please review drawings below for possible configurations of the Ultra-Track Pans. Please draw your planned set-up on page 2 of this packet to ensure your flow throughs and connection points are drilled correctly. Each pan is approximately 4.5 feet long.

EXAMPLE:

Ultra-Track Pan Polyethylene Model

LAYOUT WORKSHEET

TRACK 1 $4.5 * \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$ Feet

TRACK 2 $4.5 * \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$ Feet
