

South Carolina Department of Transportation

March 25, 2008

Mr. Sam Bates
Ultratech International, Inc.
11542 Davis Creek Ct.
Jacksonville, FL 32256

Reference: Ultra ADA Pads (Wet Inset and Dry Bonded)

Dear Mr. Bates:

The above product has been checked using our test methods and found to meet South Carolina Department of Transportation's Standard Drawing No. 720-905-02. These products may be used for "wet inset" and "dry bonded" applications and will be listed on the Department's Qualified Product List # 61 for Detectable Warning Surfaces with the information shown below:

Contact: Ms. Sam Bates
Ultratech International, Inc.
11542 Davis Creek Ct.
Jacksonville, FL 32256
(800) 353-1611

Product: Ultra ADA Pads

The listing does not obligate the South Carolina Department of Transportation to include or specify your product. It is your obligation to market this product to those who can use it. The Department reserves the right to revise or modify current specifications, as it deems necessary. Upon any changes in the specifications, you may be required to resubmit your product.

If you have any questions, you may contact me at (803) 737-1850.

Sincerely,

Henry Cross
Design Standards Engineer
