Ultra-Aqua Bags

Protect property against floods, leaks, and other liquid emergencies

The Ultra-Aqua Bag is a revolutionary water barrier or sandless sandbag providing an effective solution for protecting property against floods, water heater leaks, broken pipes, overflowing toilets and other liquid emergencies.

Instructions for Sandbag Usage

1. Submerge the Ultra-Aqua Bags in an optional staging pool or bin full of fresh water.
2. Allow to soak until fully expanded (approximately 5 minutes).
3. Place expanded bags as you would typical sandbags.

Instructions for Water Absorption

1. Place the Ultra-Aqua Bags around water leak and/or standing water for absorption.
2. Replace fully saturated bags as needed.
3. Dispose of filled bags in a trash receptacle.

Optional staging pool can soak 15 pads at a time (P/N 3512). Folds down into compact package when not in use.

Fills in minutes

Filled weight: 30 - 40 lbs.

Part#	Description
5400	Ultra-Aqua Bag 15-Pack
