# ULTRA-CONCRETE WASHOUT BERM, RPE MODEL®

Fast, reusable containment for concrete washout operations

Concrete washout doesn't have to be messy, risky, or a last-minute scramble.

The Ultra-Concrete Washout Berm provides fast-deploy containment that keeps slurry off your site, out of storm drains, and away from compliance headaches.

## FEATURES & BENEFITS

- + **Durable Construction** - Textured reinforced polyethylene (RPE) holds up to heavy use and harsh jobsite conditions.
- + **Easy Setup** - Wire L-brackets slide into built-in sleeves for fast, straightforward setup with no complicated assembly.
- + **Drive-in/Drive-out** - Sidewall supports can be quickly removed, allowing trucks to drive directly into and out of the berm with ease.
- + **Reliable** - Provides reliable containment for concrete washout, helping keep slurry off the ground and out of storm drains.
- + **Reusable** - Designed for repeated use, making it a dependable solution from one jobsite to the next.
- + **Two size options** - 8' x 10' and 10' x 10' to fit different site layouts and operational needs.

Part#	Description	Dimensions in. (mm)	Containment Capacity Gal. (L)	Weight lbs. (kg)
