

Ultra-Modular IBC Spill Pallet® 2-Tank Outdoor Model

Product Data Sheet

Features and Benefits:

- + Provides low cost spill containment for two IBC tanks.
- + Components can be purchased separately to allow users to create “build-your-own” configurations.
- + Each IBC tank sits on a heavy duty spill pallet that offers a Uniformly Distributed Load (UDL) capacity of 9,000 lbs (4,083 kg).
- + All-polyethylene construction resists UV rays, rust, corrosion and most chemicals for long trouble-free life of the product.
- + Spill Pallets and expansion tanks are connected via flow through bulkhead allowing the individual units to share containment capacity.
- + Constructed of 100% polyethylene, eliminating the potential for rust and corrosion as well offering excellent chemical compatibility with a broad range of chemicals including acids, solvents and oils.

Part#	1166
Dimensions in. (mm)	188 x 93 x 79 (4,775.2 x 2,362.2 x 2,006.6)
Weight lbs. (Kg)	1,258 (570.6)
Weight Capacity lbs. (Kg)	9,000 (4,082.3) - per compartment
Containment Capacity gal. (L)	355 (1,343.8)
Composition	Polyethylene (LLDPE)
Color	Yellow / Black / Gray
