Ultra-Filter Sock®

Stop sediment and other pollutants from entering stormwater drains

The Ultra-Filter Sock represents the ultimate in above-drain stormwater protection. With the different filter media options available, our filter sock is capable of removing many different types of sediments and pollutants. In fact, it is the only product with this versatility.

The 9-foot-long filter socks are placed in front of storm drains. The woven geotextile material allows stormwater to flow through into the storm drain while the media inside of the filter sock removes pollutants.

Product Highlights

- + Use the Ultra-Filter Sock front of storm drains, around downspouts, in gullies and ditches, or anywhere there is potential for harmful stormwater runoff.
- + Woven polymer casing allows water to pass through quickly while filtration media inside removes pollutants.
- + High UV rating allows extended life in sun and elements.
- + Available in 9-foot lengths. Units can be overlapped for longer coverage.
- + Looped ends allow units to be staked in place and also assist in transport.
- + Available with different types of media depending on which pollutant is present. (Multiple Ultra-Filter Socks can be used in a “treatment train” if the potential for more than one contaminant or a large quantity of a single contaminant is present).
- + Option for heavy-metal removal available.

Ultra-Filter Sock

Part#	Model	Overall Dimensions in. (mm)	Weight Lbs. (Kg)
9453	Ultra-Filter Sock, Activated Carbon	108 x 7 x 4 (2,743 x 178 x 102)	40.0 (18.1)
9455	Ultra-Filter Sock, Sorb 44	108 x 7 x 4 (2,743 x 178 x 102)	15.0 (6.8)
9457	Ultra-Filter Sock, Sediment Removal	108 x 7 x 4 (2,743 x 178 x 102)	43.0 (20.0)
9459	Ultra-Filter Sock, Sediment Removal (Bulk Pack of 36)	108 x 7 x 4 (2,743 x 178 x 102)	1,500.0 (680.4)
9456	Ultra-Filter Sock, PhosFilter	108 x 7 x 4 (2,743 x 178 x 102)	66.0 (29.9)
9454	Ultra-Filter Sock, HMRM	108 x 7 x 4 (2,743 x 178 x 102)	35.0 (15.9)
9464	Ultra-Filter Sock, HMRM (Bulk Pack of 25)	108 x 7 x 4 (2,743 x 178 x 102)	895.0 (406.0)

Media Descriptions:

Model	Description
Activated Carbon	Excellent "polishing media". Helps remove certain chemicals, hydrocarbons and odors.
Sorb 44	Used to remove oil and other hydrocarbons.
Sediment Removal	Recycled rubber media provides weight, keeps unit in place, allows maximum water flow.
PhosFilter	Excellent for removal of phosphorous.
Heavy Metal Removal (HMRM)	Custom filter media helps remove zinc, lead, copper and other harmful, heavy metals.
