

ULTRATECH
INTERNATIONAL, INC

Ultra-Gutter Guard RT®

Specifications

Description: Geotextile Bags and Tubes manufactured from high UV, woven monofilament polypropylene filter fabric. Made from 100% US fabric and sewing thread. Significantly heavier and stronger than most common imported gravel bags. Constructed with lift loops that help reduce worker fatigue. The addition of lift loops make lifting and installing gravel bags and tubes much easier.

Sizes: 11x48" / 11x96"

Materials: Single layer of 6.2-oz woven monofilament filter fabric

Performance

Weight: +/- 9 lbs. per lineal foot

Fabric Weight: 6.2 oz.

Sediment Capture Rate: >90%

Specifications

Attribute	ASTM	Value
Tensile Strength	D4632	350/250 lb
Mullen Burst	D3786	175 psi
Flow Rate	D4491	100 gpm/ft ²
UV Resistance @500 hrs	D4355	80%
Apparent Opening Size (AOS)	D4751	40 U.S. Std. Sieve
