

ULTRATECH
INTERNATIONAL, INC.

Stop Plastic Pellets From Entering the Storm System

Ultra-Storm Guard

- Designed to capture microplastics left behind from plastics manufacturing plants.
- Captures larger items and floatables like leaves, cigarette butts, paper goods and other debris.
- Easy installation: simply raise the grate, place the Ultra-Storm Guard over the opening, and carefully lower the grate back in place.
- Helps comply with Operation Clean Sweep and other “zero plastic resin loss” programs.

Ultra-Storm Guard HD

- Heavy-duty catch basin insert captures and contains plastic pellets and other contaminants.
- High-strength, 5000 series aluminum construction.
- Built in, stainless steel screens filter out plastic pellets and other particles that are 1.5mm (1,500 microns) or larger.
- Helps comply with Operation Clean Sweep and other “zero plastic resin loss” programs.

Ultra-Storm Guard HDC

- Heavy-duty, aluminum construction catch basin insert captures and contains plastic pellets and other contaminants using removable/replaceable filtering cartridges.
- Cartridges filter out plastic pellets and other particles that are 1.0mm (1,000 microns) to 5.0mm (5,000 microns) in size.
- Different cartridges are available depending on target pollutant(s).
- Helps comply with Operation Clean Sweep and other “zero plastic resin loss” programs.
