Ultra-Track Pans, Composite Model Warranty Information

Warranty Summary

For a period of five years from the date of purchase, if an Ultra-Track Pan, Composite Model proves defective in materials and workmanship during normal use by the purchaser of this product, UltraTech International, Inc. (“UltraTech”) will arrange for its replacement or repair.

To receive repair or replacement, contact the distributor from which the product was originally purchased to initiate the process. All repairs and replacements must go through the distributor from which the product was purchased. If you are unable to determine the distributor you purchased from, please contact UltraTech customer service at 904-292-1611. UltraTech reserves the right to require proof of purchase in conjunction with any such return.

This warranty does not apply to any products which have been subject to any misuse, including but not limited to products used with materials (primarily liquids) that are not recommended by the manufacturer or are incompatible with the product; products which have been altered in any way by the user or used in a manner inconsistent with their intended use; products which have been subjected to severe treatment (excessive weight, exposure to severe weather, dropping, improper use and operation, misuse, etc.) not reasonably associated with “ordinary” usage. It is solely the purchaser’s responsibility to ensure proper chemical compatibility with the product and the chemicals to be contained by the product. The warranty does not apply to “fiber bloom” issues or concerns. Fiber bloom is a phenomenon where UV exposure eventually causes loss of the top layer of resin, exposing glass fibers on the surface. This will not create any performance reduction, but it will change the aesthetic look and not have the same “new” look after a number of years. This warranty does not apply to damage or failure due to improper installation or use.
