Ultra-Flood Stopper®

Sandless sandbags protect property against floods, leaks, and other liquid emergencies

The Ultra-Flood Stopper® is a revolutionary sandless sandbag that can be used to build an effective water barrier to protect property, homes and stores against floods and other liquid emergencies.

- + Easy-to-use and transport - bags and tubes weigh approximately one pound each and measure 12"x 24" (305 x 610mm) before being activated with fresh water.
- + Sturdy construction – Passes multiple drop tests from 1 meter.
- + Quick acting - In 2.5 - 3.5 minutes, the bag fills to capacity, ready to prevent floods and leakage from causing damage.
- + Engineered consistency - designed and built to maintain a consistent shape throughout the Bag or Tube. The Ultra-Flood Stoppers use an ingenious and patent pending method for assuring the complete distribution of the water-absorbing polymer granules, when activated.
- + Fills to approximately 4" height/30lbs. (102mm) (13.6)
- + Safe, Non-Toxic, and can be disposed of at local landfill.

Each bag weighs less than a pound prior to being activated

Part#	Description	Dimensions per Bag Prior to Activating in. (mm)	Weight per Unactivated Bag lbs (kg)	Weight per Activated Bag lbs (kg)
5430	Ultra-Flood Stopper® Bags 6-Pack	12 x 24 x .5 (305 x 610 x 13)	Approx. 0.6 lbs. (.27)	Approx. 30 lbs. (13.6)
5435	Ultra-Flood Stopper® Tube 2-Pack	8 x 60 x .5 (203 x 1524 x 13)	Approx. 0.6 lbs. (.27)	Approx 20 lbs. (9.07)
5437	Ultra-Flood Stopper® Tube 1-Pack	8 x 120 x .5 (203 x 3048 x 13)	Approx. 1.2 lbs. (.54)	Approx. 40 lbs. (18.14)

Bulk packaging available upon request.
