Ultra-Storm Guard Plus®

Heavy-duty, adjustable catch basin filter captures hydrocarbons, plastic pellets and other contaminants

The Ultra-Storm Guard Plus delivers reliable stormwater management in a simple, efficient design. Built for long-lasting performance and easy installation, it combines durability with flexibility to handle a wide range of site conditions.

Product Highlights

- + Constructed with a durable 13-gauge stainless steel frame
- + Quick and easy installation - simply lift the storm grate, place the Storm Guard Plus into the catch basin, and replace the grate.
- + Adjustable aluminum frame (2" adjustment range) and expandable flanges to fit both standard and irregular catch basin openings
- + Lightweight, flexible polypropylene basket maximizes catch basin space, reducing maintenance frequency
- + Replaceable filter bag with a high treatment flow rate of 145 GPM/ft² captures fine sediments and solids from stormwater runoff. Great for plastic pellet containment.
- + Protected bypass keeps sediments and trash safely stored, even during extreme rain events.
- + Easy maintenance by hand or vacuum truck, minimizing downtime and labor costs.
- + Integrated Ultra-Filter Texv oil boom ideal for sites such as parking lots, maintenance yards, and transfer stations where hydrocarbons are present in the stormwater (easily removed if not needed).
- + Functions as an effective prefilter to protect downstream stormwater BMPs including detention ponds and infiltration areas
- + Designed for long-term reliability with fewer components for simplified maintenance and lower total cost of ownership

Ultra-Storm Guard Plus

Part#	Model	Dimensions in. (mm)	Weight Lbs. (Kg)
9889	Ultra-Storm Guard Plus, 2' x 2'	24 x 24 x 30 (620 x 610 x 762)	30.0 (13.6)
9891	Ultra-Storm Guard Plus, Custom Size	Varies	Varies
