

Plastic Pellet Containment Solutions

Ultra-Pellet Berm™, Foam Wall Model MADE IN USA NEW PRODUCT

Low-profile pellet containment with flexible foam sidewalls

Designed for pellet handling, transfer, and temporary collection points, the Ultra-Pellet Berm™ Foam Wall Model helps prevent plastic pellets from escaping into the environment. Its low-profile foam sidewalls create a defined containment area while remaining flexible enough for quick setup, transport, and storage.

Its low-profile foam sidewalls create a defined containment area while remaining flexible enough for quick setup, transport, and storage.

- + Flexible foam wall design creates a low-profile containment area for plastic pellets.
- + Durable 40 oz. PVC construction stands up to demanding industrial environments.
- + Large 6-inch mesh drain allows rainwater to exit while helping keep pellets contained.
- + Weighted base helps reduce movement caused by wind and weather.
- + Built-in carrying handles simplify deployment and relocation.

Ultra-Pellet Berm™ MADE IN USA

Weighted Containment Berm stays in place in windy conditions

The Ultra-Pellet Berm is designed to capture and contain plastic pellets. Its rugged PVC construction ensures long service life, while the large, 6-inch diameter drain keeps pellets in the berm and allows rainwater to pass through quickly. Four included weights can be installed to help keep the Pellet Berm in place, even in windy conditions.

- + Heavy-duty 40 oz. PVC construction provides long-lasting durability
- + Large 6-inch diameter drain allows rainwater to drain quickly while retaining pellets
- + Four built-in sleeves in the base hold the included rebar weights, adding 2 pounds to help keep the unit in place
- + Folds for compact storage and features built-in carrying handles for easy transport

Ultra-Pellet Trap®

Protect the water system from microplastics and other pollutants with Ultra-Pellet Trap catch basin inserts

- + Engineered to filter microplastics ("nurdles") and other stormwater waste before it becomes a problem in the water system.
- + The geotextile fabric and easy installation make the Ultra-Pellet Trap ideal for plastics processing and manufacturing plants, industrial facilities, construction sites, and parking lots where stormwater runoff is likely.
- + Easy installation: simply raise the grate, place the Ultra-Pellet Trap over the opening, and carefully lower the grate back in place. As a final step, pinch the fabric in place to keep it secure.
